

## Our Programs

**Preschool All-Day Care for 1 to 4 year olds**—Our all-day program helps busy parents juggle the challenges of work and family year-round by providing a nurturing and joyful environment for your infants and preschoolers. Running from 7:30a.m. to 5:30p.m. daily, the program schedule involves structured age-appropriate learning as well as free play. Every age group has carefully designed curriculum blending child-initiated and teacher-directed activities.

**Pre-K 3 and Pre-K-4 Program**—Our two or three day preschool programs for 3's and 4's offer activities that foster a love of learning in these critical years. Attending from 9 a.m. to 12 noon, your little one will cultivate gross and fine motor skills, work on writing numbers and letters, and learn social skills to build self-assurance and respect for others.

**Pre-K 5 Program**—This daily program provides nurturing guidance in the critical year of transition from preschool to kindergarten. Emphasis is placed on language skills, writing, pre-reading, listening, and other basics using a literature-based pre-kindergarten curriculum. Children attend full days on Tuesday and Thursday and half days on Monday, Wednesday and Friday to give them a strong foundation for entering kindergarten.

**Mother's Day Out**—As a special outreach ministry of Abba's House, this separate program provides mothers with a regular block of time away from their children to meet personal and family needs, while giving their babies and preschool children socialization opportunities. Open to birth through age six (6) weeks and running through the school year, parents can chose a one- or two-day program.

# Nurturing Your Growing Child

WE LIVE IN A FAST-PACED WORLD, BUT SOME THINGS STILL DEMAND OUR FULL ATTENTION AND QUALITY EDUCATIONAL CHILD CARE IS ONE OF THOSE THINGS. PARENTS WANT TO KNOW THEIR PRECIOUS CHILDREN ARE WELL-LOVED AND NURTURED WHILE THEY BALANCE THEIR RESPONSIBILITIES OF FAMILY AND CAREER. ABBA'S HOUSE ACADEMY IS COMMITTED TO GIVING PARENTS THAT PEACE OF MIND!

OUR HIGH STANDARDS AND ATTENTION TO EXCELLENCE HAVE BROUGHT US TO OUR 40 YEAR ANNIVERSARY IN PROVIDING QUALITY PRESCHOOL CARE TO THE CHILDREN OF THE TENNESSEE VALLEY.

## Our Mission

At Abba's House Academy, it is our priority to provide your child with a nurturing environment to further his or her emotional, social, mental, spiritual, and physical development.

## Our Difference

Parents have the peace of mind to know that as a church-related ministry, our preschool strives through action and teaching to invest basic Christian values into their child. When we look at a child, we strive to see them through God's loving eyes. We want children to know and experience God's love. Each child is loved and special, with a divine purpose. We believe children can be raised to develop their God-given potential. We strive for this by providing a quality atmosphere with loving teachers, creative learning, and personal attention.

## Our Goals for Your Child

- To lead them to feel accepted, wanted and loved
- To show them they are special, unique, and created for a special reason with a God-given plan
- To create an excitement about attending school, and instilling in them a deep love of learning
- To help them gain confidence in expressing themselves and how they feel
- To produce a successful learning and living experience, helping them to develop a solid set of values and confidence.

## Our Teachers

Our quality of care shows in our faculty! Our preschool teachers and staff have degrees in early childhood education or hold a Certificate in the TECTA Program (Tennessee Early Childhood Training Alliance). All are CPR and First Aid certified. Most of all, they love children, and are passionately committed to nurturing your child in a safe, warm atmosphere. Our teachers hold exuberance for learning that will transfer to your child, helping them to solve problems and to gain meaning and knowledge from both the familiar and the unfamiliar. We understand the important differences in children and their readiness to learn, and our goal is to lay a positive foundation for their elementary school years.

## Our Qualifications

Since 2002, we have received a 3 star rating from the Tennessee Department of Human Services, the highest rating it gives. With one of the longest running child care centers in the Tennessee Valley, our experience ensures your child the best environment to grow and learn. Our 40 years of quality

early child care experience speaks volumes about our heart for giving your child a safe and loving environment in the finest private preschool program available.

*"I tell everyone I know with small children about the blessings we experienced from having our children in the preschool at Abba's House. Both of my children attended and were more than prepared for kindergarten. My son was reading and doing simple fractions by the end of his Pre-K5 year! Since then, he has always been at least one to two reading levels above his peers. My daughter attended the Pre-K4 class and thrived; she was so ready for kindergarten because she was already familiar with the structure and routine of attending class—it was an easy transition. The teachers foster a "family atmosphere" with the children...I am truly thankful for how God is using Abba's House Academy to minister to children biblically, socially, and academically as they prepare for their first big steps into the real world.*

*—Diana Bryant, preschool parent*

*"...my Elizabeth got the chance to experience a true classroom environment...besides the basic facts, she also learned the Pledge of Allegiance among many other daytime routines. She had the chance to experience exciting field trips throughout the year. By year's end, she had accomplished so much, and was easily accepted to Bright School for kindergarten. The Academy prepared her and she fit in with her peers perfectly!"*

*—Jennifer Hale, preschool mom*

*"Thank you, Abba's House, for providing this preschool department!!! My Celisia absolutely LOVES coming to school, and this has turned out to be the perfect transition for her, which was our goal!!"*

*—Laura Snakenberg, preschool mom*
